

Get your chance!

For more than 175 years, Oschatz Power GmbH has been a leading specialist in combustion technologies, energy recovery and waste utilisation in plant construction with the know-how of more than 1,500 successfully implemented plant projects. Innovative and resource-efficient waste heat systems for converting industrial waste heat into steam or other forms of energy form the core of the product portfolio. Oschatz Power GmbH is a member of the Deurotech Group GmbH.

For our location in Essen we are looking for:

Process Engineer Firing Technology (m/f/o)

Your tasks

- Preparation of technical specifications, design calculations, basic engineering for combustion process
- Advice / support for the sales department with regard to combustion technologies
- Preparation of inquiry specifications for purchased parts from sub-suppliers including technical clarification
- Evaluation and processing of subsupplier quotations
- Project management for purchased combustion systems as part of the overall project
- Quality, schedule and delivery control of sub-suppliers of firing systems
- Accompanying the commissioning of the firing system
- Participation in technical discussions with the customer
- Preparation of operating instructions and functional descriptions, participation in hazard analyses

Your profile

- Degree in mechanical engineering (TH/FH) in the field of process engineering, thermal or energy engineering, chemical engineering or similar.
- Several years of experience in the design or operation of combustion plants
- Good knowledge of the relevant national / international regulations for grate firing systems and incineration plants
- Customer-oriented, able to work in a team and independently
- High level of commitment, flexibility and assertiveness
- Very good written and spoken English skills
- Good knowledge of MS Office
- Willingness to travel occasionally, even for several weeks at a time

We offer

- An open-ended employment contract in a future-proof industry with excellent career prospects
- Flat hierarchies, short decision-making processes and collegiality characterize our corporate culture
- Independent and varied work in a motivated and engaged team
- An attractive salary, capital-forming benefits and company pension scheme
- 30 days vacation, as well as individual training and development opportunities
- Modern offices in the heart of Essen including company parking spaces and the option to work remotely
